

STANCESENSE

Clinical Monitoring Report

PATIENT INFORMATION

Patient ID: rohanbaiju210@gmail.com

Report Date: November 16, 2025

Generated: 03:55:43 PM

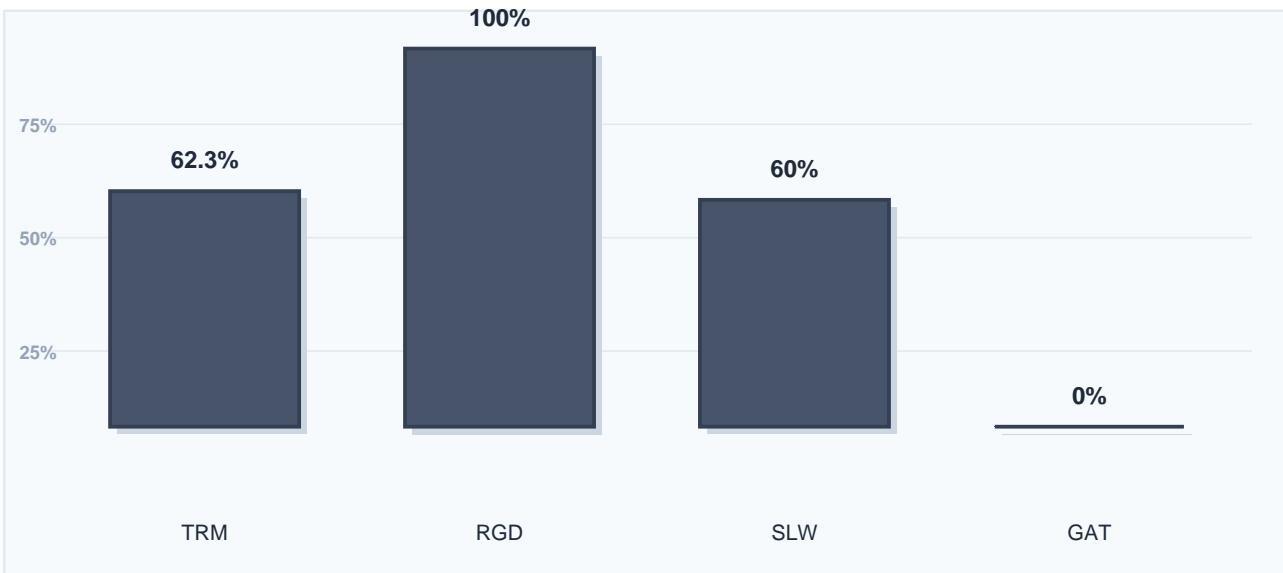

EXECUTIVE SUMMARY

56%

SIGNIFICANT

Substantial symptoms affecting daily activities

SYMPOTM ANALYSIS

Detailed Metrics

SYMPTOM	SCORE	STATUS	TREND
Tremor	62.3%	Monitor	! Stable
Rigidity	100%	Alert	! Stable
Slowness	60%	Monitor	! Stable
Gait Issues	0%	Good	! Stable

PATIENT NOTES & OBSERVATIONS

Space for patient or caregiver notes, observations, and comments...

SYMPTOM PROGRESSION TREND

CARE RECOMMENDATIONS

1 Ø>Ý2 Try weighted utensils or stabilizing aids to assist with daily tasks

2 & Avoid caffeine and ensure adequate rest to minimize tremor intensity

3 Ø=Ü† Practice relaxation techniques - stress can exacerbate tremors

4 Ø=Ý% Apply heat therapy (warm bath or heating pad) to stiff muscles

5 Ø=Üª Gentle stretching exercises every 2-3 hours can reduce stiffness

RECOMMENDED THERAPY GAME

ØKB® Steady Hand Game

Practice steady muscle control to reduce tremor amplitude through hand coordination training

Target: tremor
